

The look that works in Irvine, California.

Koll Airport Professional Center Renovation, Irvine, CA
ARCHITECT: LPA, Inc., Irvine, CA
THE LOOK THAT WORKS: Clear-anodized aluminum sun controls
reduce energy costs, and contribute to LEED credits.

Architects, builders and building owners across the U.S. rely on Airolite for innovative, effective product solutions that make a unique visual statement while performing critical functions. Our products ventilate, illuminate, reduce glare, prevent water penetration, save energy, provide visual screens and add security for new and renovated buildings. For well-crafted products, assembled in America and delivered on time, let's partner on your next project.
